
HOIST & HAUL 2020 International Conference on
Hoisting and Haulage
AUG. 10-13 • MONTREAL, QC

**Author Guidelines and Template:
Paper Preparation for H&H 2020**

IMPORTANT INFORMATION

- Submit papers online in Word (.doc or .docx), read and accept the Copyright form and email to CIM by **March 20, 2020**
- Presenters must register and pay the presenter registration fee before **May 31, 2020**.
- Paper presentations will only be published if the author has registered (Presenter fee) and paid for the conference by this deadline.
- An LCD projector and a computer will be available in the meeting room. Please contact Chantal Murphy at cmurphy@cim.org before **May 31, 2020**, if special audio-visual equipment is required.
- Presenters are requested to show up 15 minutes before the session starts in order to upload their presentation in the computer.

IMPORTANT DEADLINES:

Full paper submission deadline:	March 20, 2020
Paper Review deadline:	April 24, 2020
Final revised paper submission deadline:	May 15, 2020
Presenters' registration deadline:	May 31, 2020

CHECKLIST

Authors are responsible for ensuring that the English grammar of their paper is of high technical quality. Please have your paper proofread by a professional English copy editor. Papers that do not meet a minimum standard will be declined before review.

- doc or docx format no pdfs
- 5–15 pages, 3 MB maximum file size
- Font black, Times New Roman, 10 pt
- Paper size and margins as in Table 1
- ALL lines single spaced. No extra spaces above or below text, figure captions, etc.
- Paragraphs indented 0.5 inches and fully justified
- Title page: **PAPER TITLE** on the 5th line from top margin, **BOLD**, ALL CAPS, CENTRED. Leave one blank line after title.
- Author name(s) centred, blank line, then affiliations centred and in *italics*
- No headers, footers, page numbers, or footnotes
- MAJOR HEADING:** bold, all caps, centred (not indented). One blank line above/below headings.
- Second level heading:** bold, sentence case, left justified
- Third level heading: underlined, not bold, sentence case, left justified
- Do not number headings
- Use em-dashes for ranges (e.g., pp. 33–45, 5–10 mg) and negative signs, NOT hyphens
- Figure captions: Centred **below** figure (not indented). First major word is capitalized. One blank line between figure caption and figure, above figure and below figure caption. No period after caption.
- Figures are a single object, formatted “in line with text”, NOT an assembly of objects that will shift if formatting changes are made
- Table titles: Centred **above** table (not indented). First major word is capitalized. No blank line between title and table. One blank line above/below table. No period after table title.
- Equations: Centred, one blank line above/below equation; equation number in brackets, right justified.
- DO NOT cite references in text by number, or number the references in the reference list.
- DO NOT use the Word cross-referencing tool to link figure and table citations in the text to the figures and tables. This introduces an error when the file is converted to pdf

TEMPLATE AND GUIDELINES TO PREPARE PAPERS

Title (10 point size, all caps, bold) begins on 5th line from top margin

ABSTRACT

Centred, NOT indented, 10 point, **BOLD**

This document sets out the requirements for preparing and submitting papers H&H 2020. All papers must conform to these instructions. This “author friendly” document serves as an example (template) of a correctly prepared paper. Abstracts within papers **should not exceed 250 words**. The abstract is a single paragraph, indented 0.5 inches, and fully justified. Do not include figures, tables or reference citations in abstracts.

4 blank lines above keywords

KEYWORDS

Alphabetize, Keywords, Capitalize first letter in each term, And separate, Terms with commas

One blank line after keywords

INTRODUCTION

Writing style and spelling

Indent 1.27 cm (0.5 inches)

- Use clear and concise writing throughout the paper and proper Canadian English spelling.
- Colons and semi-colons: No space before, one space after.
- Dashes: Be consistent throughout. Use hyphens within words (-) and en-dashes for ranges (–).
- SI units: Space between number and unit (25 km).
- Initials: One space between initials (P. A. Riveros).
- Aim for a paper length of **5–15 pages** (most are approx. 10 p.), including title page, text, figures, tables, and references.
- Electronic file should **not exceed 3 MB**.

Authors are responsible for ensuring the accuracy of all information in their papers (e.g., proper names of organizations, data, and references). **If images (graphs, photograph, etc.) are reproduced from another source, it is the author’s responsibility to obtain copyright permission from the original publisher.** SI units or acceptable metric equivalents must be used throughout. These instructions will enable you to prepare your paper in an electronic format, ready for submission and peer review. It is essential that these instructions are carefully followed!

HOW TO FORMAT AND PREPARE THE PAPER

MAJOR HEADING
centred, NOT indented!

Prepare your paper using Word (.doc or .docx). To ensure that your paper has an identical appearance when viewed on almost any computer, avoid using a 2-byte code for Chinese characters.

Page size and layout

Example of a second-level heading
NOT indented!

Prepare your paper on either North American letter (8.5 × 11 inches) paper or European A4 (210 × 297 mm) paper, using the margins in Table 1. **DO NOT add page numbers, headers, or footers.**

Table 1. Paper margins

Table title
centred. NOT indented!

Margin	Letter (8.5 × 11 inches)	A4 (210 × 297 mm)
Top	2.90 cm (1.14 inches)	2.90 cm (1.14 inches)
Bottom	2.80 cm (1.10 inches)	4.60 cm (1.81 inches)
Left & right	3.20 cm (1.26 inches)	2.90 cm (1.14 inches)

*Ensure you select the correct paper type (A4 vs. letter) for your margins.

Type style and spacing

All headings and text must be typed in black Times New Roman (TNR) font. Use 10-point type size throughout your paper, including the title. **Single space all text (no extra lines before or after)**

First page

Example of a third-level heading
NOT indented!

The first page contains:

- The title of the paper in bold 10-point TNR, all letters in capitals; the title begins on the 5th line from the top margin (i.e., 4 blank lines above).
- The authors' names, separated from the title by a single blank line, centred, in regular TNR, with the first letter of each part of the name capitalized.
- Co-author(s) are placed on the same line and in the same format as the first author, with the names separated by commas, and for the last author, a comma plus "and".
- The author's affiliation and address, immediately below the name, centred and single-spaced, *in italics*.
- The major heading **ABSTRACT**, centred, all letters capitalized, in bold.
- The body of the abstract should not exceed 200 words. Use regular TNR, fully justified, separated from the heading **ABSTRACT** by one blank line and indented.
- The abstract is a single paragraph and does not contain figures or references.
- The major heading **KEYWORDS**, centred, with all letters capitalized, in bold, separated from the last line of the abstract by four blank lines.
- The list of keywords, not to exceed 10 terms, in regular TNR, left justified, not indented, separated by commas, first letter of first word of the term capitalized, in alphabetical order, and separated from the heading **KEYWORDS** by one blank line.
- Use keywords that you would use if you were searching for your paper.
- Insert one blank line under the keywords

Body of paper

The body of the paper begins with the major heading **INTRODUCTION**, centred, with all letters capitalized, in **bold**. Separate sections of the main text in accordance with the headings guidelines below.

Headings

All headings are in 10-point TNR font. Ideally, use three levels of headings: major, second-level, and third-level. **DO NOT number headings.** Major headings, such as **ABSTRACT, INTRODUCTION, EXPERIMENTAL, RESULTS, DISCUSSION, CONCLUSIONS, ACKNOWLEDGMENTS, and REFERENCES** are centred (NOT indented), bold, not underlined, and in capital letters. The main text of the paper begins with a major heading (e.g., **INTRODUCTION**). Subsequent major headings are separated from the text above and below by one blank line; they do not begin a new page unless it is strictly required.

Second-level and third-level headings have the initial letter of the first word capitalized (this is termed sentence case) and positioned at the left margin. Second-level headings are bold. Third-level headings are not bold, but underlined. Both are separated from the text above and below by one blank line.

Text

Paragraphs are single-spaced (6 lines per inch), fully justified, with the first line indented 1.27 cm (0.5 inch). Paragraphs are separated from each other and from headings, figures, or tables with a blank line.

Footnotes

Do not use footnotes! Incorporate all required information in the body of the paper.

Equations and symbols

Simple mathematical expressions and sub- and super-scripted characters, such as SO_4^{2-} , are inserted in the text. **Do not embed equations as an image.** Place equations on separate lines, centred and numbered consecutively in parentheses at the right-hand margin. A blank line precedes and follows each equation. Use a dash rather than a hyphen for the minus sign. Placing equations in tables (with no borders) helps position them correctly.

$$E = 1.23 - 0.06 \text{ pH} \quad (3)$$

Figures

Insert figures immediately after the paragraph where they are first cited. In the text, refer to the figure by its number, not its relative position. A figure too wide to fit between the margins may be placed in landscape orientation (sideways format), on a page by itself. All figures should be high resolution (300 dpi) when published at 100%. Graphs (Figure 1), line drawings, photographs, and other illustrations are preferable in colour. Lines and lettering must be large enough (minimum 0.35 point thickness) to be legible when printed at 100%. For maps, microstructures and similar figures, place a scale marker on the picture or photograph. Do not use frames around figures. Do not use shaded backgrounds; they do not reproduce well.

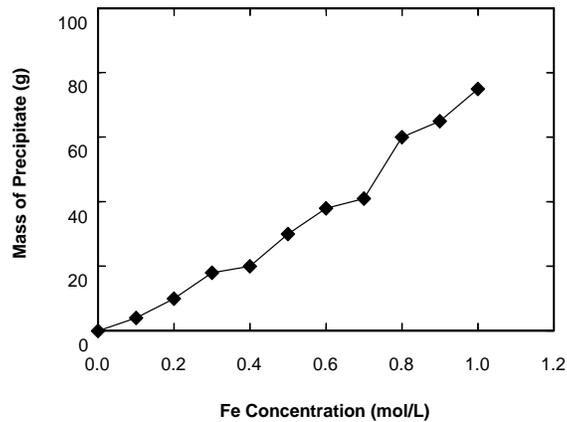

Figure 1. Effect of iron concentration on precipitate mass

Figure and caption centred, NOT indented!

Figures, especially photographs and SEM images, can significantly increase the electronic file size. Make every effort to reduce the size of the electronic files of your photomicrographs and other graphics. For example, add figures using the “Insert-Picture” function. For Excel charts, use the “Copy-Paste Special-Picture” sequence.

Number figures consecutively with Arabic numerals. A caption comprising the word “Figure,” the figure number, a period, a space, and the figure title in 10-point TNR, must be centred **below** each figure. A single blank line is used to separate a figure from its caption. Separate each figure and caption from the adjacent text with one blank line. Do not use a period at the end of the figure caption.

Tables

Insert tables immediately after the paragraph where they are first cited. In the text, refer to a table by its number, not its relative position. Large tables may be placed in landscape orientation on a page by itself. **Avoid splitting a table onto two pages.** Number tables consecutively using Arabic numerals and centre the title above the table. The word “Table” is followed by the table number, a period, and the title. There is no line space between the title and the table itself.

Table-wide lines (horizontal ½ point thickness) separate the title from the column headings, the column headings from the body of the table, and the table from the following text. Avoid using vertical lines and horizontal lines between rows of data. Table row spacing is at the discretion of the author(s). Separate each table from the adjacent text with one blank line.

Table 2. Electron microprobe analyses of sphalerite grains in the Kidd Creek “C” concentrate

Element	Average content (wt%)	Range (wt%)
Zn	60.8	59.6–63.3
S	3.31	33.6–33.5

REFERENCES

Citations in the text

Do not cite references in the text using numbers. Use the “&” symbol in bracketed citations and “and” when the author names are part of the sentence. Cite all authors of papers with more than 2 authors the first time, then use “et al.” thereafter. Exception: if 6 or more authors, use “et al.” in all cases. Separate references cited in the text with semi-colons and place them in chronological order (earliest to most recent). Here are some examples:

Smith (2018) noted that...

Smith and Jones (2018) were the first to demonstrate...

Smith, Jones, and Foster (2018) detected....

After the first text citation above, Smith et al. (2018) detected...

Oxygen and temperature profiles were positively correlated (Smith, 2018)

Oxygen and temperature profiles were positively correlated (Smith & Jones, 2018)

Oxygen and temperature profiles were positively correlated (Smith, Jones, & Foster, 2018; Carmichael, 2019).

After the first text citation above, use (Smith et al., 2018).

The reference list

American Psychological Association (APA) referencing style must be employed. **Do not number references**, instead alphabetize by last name of first author. The reference list includes only publications cited in the text, figures, and tables. The following examples show reference formats for journal articles, chapters, theses, books, and conference proceedings.

- Ang, T., Yang, Y., Huang, Z., Zhang, B., & Qiu, G. (2004). Leaching kinetics of pyrolusite from manganese-silver ores in the presence of hydrogen peroxide. *Hydrometallurgy*, 72(1–2), 129–138. [https://doi.org/10.1016/S0304-386X\(03\)00136-1](https://doi.org/10.1016/S0304-386X(03)00136-1)
- Brummer, R. K., & Andrieux, P. (2008). Risk: quantitative decision making under technical uncertainty – evaluating probability of occurrence and cost of failures. In J. Hadjigeorgiou (Ed.), *Strategic vs. tactical approaches in mining* (pp. 173–183).
- Champagne, P. (2007). *Sustainable development: Enhancing host-country capacity* (Unpublished master's thesis). Edwin University, Cardiff, Wales.

OR

EMAIL THE FORM BEFORE MARCH 20, 2020 TO CMURPHY@CIM.ORG

HOW TO PREPARE YOUR POWERPOINT PRESENTATION

The format of the conference allows for **25 minutes** for the presentation including a question and answer period.

Presenters are requested to show up in the session room at least 15 minutes before the session starts to upload their presentation on the computer.

The following guidelines are designed to help presenters with their preparation. These guidelines apply to slides projected directly from PowerPoint or other software.

- Slide layout: standard 16:9 aspect ratio
- Slides should clarify and complement what is spoken: avoid putting spoken words on slides.
- Many simple slides are better than one complex slide (limit to 7 lines or 20 words per slide).
- Allow one slide per minute.
- Use contrasting colors. A dark background with light text is visually-appealing.
- Avoid red or dark blue text: it does not project well.
- Double-spaced text is more legible.
- Sans serif font (e.g., Calibri, Arial) is more legible than a serif font (e.g., Times New Roman).
- Minimum font size 18 pt; headings should be at least 24 pt.
- Do not use ALL CAPITAL LETTERS.
- Ensure the line thickness is sufficient before transferring an image from a graphics package.
- Title slide should contain title, authors' names, date, and location of the presentation.
- Include a "Contents" or "Agenda" slide that identifies headings for discussion.
- Use a separate slide for the heading to be discussed and provide more information if required.
- Apply the same slide color scheme used on the main title to the contents slides (for continuity).
- The final slide may display the company logo, to be left on the screen during the question period.

CIM ACADEMY AND THE RECORDING OF YOUR PRESENTATION

The CIM Academy (launching soon) is a major educational platform where all CIM content is available and where viewers are able to obtain a personalized certificate of completion on each presentation viewed, as long as they fill out the evaluation form after viewing the complete lecture.

Your presentation might be selected to be recorded and included in the professional development program. You will be contacted at a later date and asked to sign an authorization form. (Attached, for your information)

On behalf of CIM, we thank you in advance for your educational contribution.

7. In the event I become aware of any content related problems (copyright clearance issues; mistakes in the accuracy of information, accidental disclosure of protected information, etc.), I may terminate the permission to publish granted under this Publishing Authorization by delivering a written notice to CIM at the contact details indicated in the article 8 containing the following: "I, (name), author of the Educational Material entitled (title) hereby terminate my publishing authorization with CIM for the said Educational Material due to the following problems : _____ (signature)" I understand and accept that such termination will become effective thirty (30) days after CIM has received such written notice. I further understand that, though the authorization to publish will thereby have been withdrawn, the other terms and provisions of this Publishing Authorization will continue in effect.

8. I represent that the personal data contained in the Educational Material, including but not limited to the special categories of personal data (e.g. health data, genetic and biometric data) processed prior to the date of the Publishing Authorization for the purposes of the scientific research as may be referred to in the Educational Material, has either been duly made anonymous/de-identified or the necessary explicit consent/authorization/release relating to the processing of the personal data for the purposes of the Publishing Authorization has been duly obtained in compliance with the applicable data protection laws.

9. For accreditation purposes, I accept to share my full name, institution details and contact details as included in/linked to the Educational Material with Accrediting Bodies when CIM and/or MLG apply for accreditation or send detailed activity reports on my educational material so that learners may claim/obtain their professional credits, points, participation confirmation, and certification (As this is mandatory, withdrawal is not possible).

10. I will transmit any notice to be provided under this Publishing Authorization in writing by email to: support@academy.cim.org or by mail to Suite 1250, 3500 de Maisonneuve Blvd. W., Westmount, QC H3Z 3C1.

11. The laws of the Province of Quebec shall govern any disputes, remedies, breaches or claims related to this Publishing Authorization. All matters arising from this Publishing Authorization shall be heard by a court in the province of Quebec, district of Montreal, to the exclusion of the courts of any other country.

For facilitation of future discussions on the Educational Material, I accept to receive a notification by email when a question is posted in the discussion forum related to my Educational Material.

Yes No

SAFETY & SECURITY AT THE DOUBLETREE HOTEL DOWNTOWN MONTREAL

At the DoubleTree by Hilton Montreal, it is important that all our guests be aware of our fire procedures to be followed and action plan to be taken. If the alarm is sounded, please follow these instructions carefully. Take a few moments to read the following details.

If an alarm has sounded in our conference room areas:

- Listen to the messages from our in-house speakers carefully
- If there is a fire, activate the pull station and leave the meeting room immediately
- Use the nearest house phone dial 55 to advise the operator of the emergency
- From our guest rooms dial 0 for assistance
- Our maître D's and staff will assist you with all directives to be taken
- Once you have evacuated the area hotel staff will secure the room
- Always leave the conference area using the nearest exit
- Follow Hotels staff member's directions that will lead you to our meeting area Niveau Promenade level 3 (next to the restaurant Baton Rouge) and wait for instructions
- Always follow Hotel Staff's instructions
- Never use the elevators

For our client's safety and security, it is important that our clients familiarize themselves with our procedures in case of fire.

All our exits on property are well identified. In our conference room areas, on our floors, and inside the guest room doors. Never use elevators in case of a fire. Always try to remain calm, listen to our in-house system for instructions at all times.
